SHEPPARTON AND ECHUCA SET TO BENEFIT FROM THE IMPROVED SERVICES OF VICTORIA'S LEADING INSURANCE BUILDER

Bay Building Services Bendigo opened their doors in early 2007, after the company had been servicing the region since 2000 from its Geelong office. After two and a half years of reliably and professionally reinstating homes within the region for some of Australia's leading Insurance and Loss Adjusting firms we have again expanded our serviceable reach by employing some of the best local contractors to work on behalf of Bay Building services in both Shepparton and Echuca.

Bendigo Branch Manager Tony Kelly said today "By establishing a strong working relationship with some of the best local trades from Shepparton and Echuca, Bay Building Services will improve their capabilities for servicing these regions efficiently and effectively." All Claims and necessary paperwork will still go through Bay Building Services Bendigo office where a team of expert claims managers can use their experience and knowledge to ensure that the best Insurance repair service available industry wide is assured.

With a Branch Manager (Tony Kelly), Estimator (Simon Dobeli) and Supervisor (Kevin Churchill) who combined have over 50 years of building experience between them will ensure Bay Building Services will continue to be the best equipped provider of Insurance Building available in Victoria.

We look forward to working with you.
