

NEWS RELEASE

Feb 09

BAY BUILDING SERVICES HAVE SET UP AN OFFICE IN KINGLAKE AFTER THE EVENTS OF BLACK SATURDAY TO HELP REBUILD THE COMMUNITY.

Following on from the recent devastating and tragic bushfires in Victoria, please be advised that Bay Building Services Pty Ltd, in order to assist all our clients and their customers, has set up the Bay Building Services Refuge Centre in the main street of Kinglake Central.

The Facility has been established with the intent of providing a central service point in the middle of the affected areas and has been set up with the approval of binding statutory authorities.

The Bay Building Services Refuge Centre will provide a fully equipped working office environment inclusive of email, phones, computers and areas for you to meet with clients and customers.

Insured's and those affected will be made more than welcome and it is our intent to provide a one stop service point where not only can they arrange to meet with representatives in a comfortable environment but also attend to any queries and assist whenever possible.

The refuge Centre will also house our crew of estimators and supervisors who are already in the area responding to make safes, demolitions, quotes etc and needless to say, the proximity to affected areas and Insured's from our Kinglake base has magnified overall response times.

The Refuge Centre will be serviced and open during normal business hours with extended working hours. Refreshments will be made available and food can be ordered as required.

We are expanding the use of this facility to all our clients and trust that our presence in the area will Assist with your representation. Should you require any further information please contact Brendan Allwood on 0425 768 403.

**** END ****
