BAY BUILDING SERVICES ARE PLEASED TO ANNOUNCE THE OPENING OF THEIR THIRD QUEENSLAND OFFICE ON THE SUNSHINE COAST

The Queensland insurance industry will again benefit from the opening of Bay Building Services in Maroochydhore on the Sunshine Coast.

Our Sunshine Coast office will be the third Bay Building office to open in Queensland and comes after three successful years reinstating properties in and around Brisbane and the Gold Coast regions. Most notably after severe storms devastated many homes and businesses in and around The Gap on the 17th November 2008.

Operations are currently being coordinated from our office in Brisbane with the new Maroochydhore office set to open in April 2010. Bay Building Services National Operations Manager Matthew Rooney said today "In an area prone to severe storms, Bay Building Services will be able to provide the Sunshine Coast with a 24 hour emergency make safe service and will be able to respond and reinstate homes and businesses damaged in this region more efficiently than we have done in the past. This will undoubtedly reduce further loss and unnecessary additional cost to our clients."

Recognised in Victoria and Queensland as a leading insurance building company, Bay Building Services specialise in insurance repairs to domestic, commercial and industrial property. The company's key clients include many of the nation's largest Insurance and Loss Adjusting firms.
