

25 August 2021

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: Chemical Name: Synonyms	HY-CLOR ALGAECIDE 5L Benzalkonium Chloride, Quaternary Ammonium Chloride, Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl,chlorides	
Product Code:	HYCALG02X05L	
UN Number: Recommended Use of the		
Chemical and Restrictions on		
Use:	Algaecide for swimming pools	
Supplier:	HY-CLOR AUSTRALIA PTY LIMITED	
Street Address:	178 Power Street	
	Glendenning NSW 2761	
Telephone Number:	(02) 8805 2400	
After Hours Contact:	0404 859 515	
Facsimile:	(02) 8805 2401	
Email Contact:	help@hyclor.com.au	
Emergency Telephone:	13 11 26 (Australia Poisons Information Centre)	
Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information"		

2. HAZARD IDENTIFICATION

Non- Hazardous according to the criteria of the GHS as adopted in Australia. Not a Dangerous Good according to ADG 7.5.

Poisons Schedule: S6 SIGNAL WORD: DANGER

GHS Hazard Statement(s)

Precautionary statements	 H302: Harmful if swallowed H314: Causes skin burns and eye damage H335: May cause respiratory irritation H401: Toxic to aquatic life Prevention: P260: Do not breathe mists. P264: Wash face and hands thoroughly after handling. P280: Wear protective gloves/ eye protection/ face protection. P273: Avoid release to the environment if this is not the intended use.
-----------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Product Name: Hy-Clor Algaecide 5L

25 August 2021

Response:

- P301 + P330 + P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- P303 + P361 + P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P363: Wash contaminated clothing before reuse.

- P304 + P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- P310: Immediately call a POISON CENTER or doctor/ physician.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P391: Collect spillage.

Storage:

P405: Store locked up.

Disposal: None

Hazard pictograms

Signal word

Danger

	Keen out of reach of Children
Label Statements:	Keep out of reach of Children
	Read Label before use If medical advice is needed, have product
	If medical advice is needed, have product
	container or label at hand.

3. COMPOSITION / INFORMATION ON INGREDIENTS		
Ingredient	CAS Number	Concentration (% w/w)
Benzalkonium Chloride	68424-85-1	15
Dye		< 0.1
Water	7732-18-5	Balance

4. FIRST AID MEASURES

For advice, contact a Poisons Information Centre. Phone Australia 13 1126 or a doctor. Have this SDS when you call.

Product Name: Hy-Clor Algaecide 5L

Safety Data Sheet 25 August 2021 Swallowed: Do not induce vomiting unless advised to do so from, a medical practitioner. Wash out mouth with water and give plenty of water to drink. Seek medical attention. Skin: Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. If irritation occurs seek immediate medical attention. Eye: If contact with the eye(s) occurs, or if eye irritation arises, wash with copious amounts of water holding eyelid(s) open. Take care not to rinse contaminated water into the non-affected eye. If irritation occurs seek immediate medical attention. Inhaled: Remove from contaminated area. If symptoms develop seek medical attention. Note to Treat symptomatically Physician

5. FIRE FIGHTING MEASURES	
Suitable extinguishing media:	Water spray, alcohol foam, dry chemical or carbon dioxide extinguishers
Special hazards arising from the chemical:	Carbon monoxide (in conditions of incomplete combustion), carbon dioxide, nitrogen oxides and hydrogen chloride may be produced if water in the product boils off.
Special protective equipment and precautions for fire firefighters:	The product is non flammable. However, after evaporation of water in the product, the residue may be combustible. In confined areas or areas of excessive smoke, fire fighter must wear full protection and self- contained breathing apparatus.
Hazchem Code:	2X

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedure	This product is sold in small packages, and the accidental release from one of these is not usually a cause for concern. Wear personal protective equipment as described in Section 8. Slippery when spilt.
Environmental precautions	Keep spilt products out of drains, sewers and waterways. If large quantities of this material enter the waterways contact the Environmental Protection Authority, or your local Waste Management Authority.

25 August 2021

Methods and materials for containment and cleaning up

For minor spills, contain and absorb with inert materials (sand, earth), sweep up, place contaminated material in a sealed container and place in garbage. Wash area down with excess water.

7. HANDLING AND STORAGE

Precautions for safe handling	Avoid skin and eye contact and breathing in vapour, mists and aerosols.
Safe storage, including any incompatibilities	Store in a cool, dry well-ventilated area, out of direct sunlight. Store in labelled, original containers. Keep containers tightly closed. Store away from incompatible materials described in Section 10. No incompatibilities known.

EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational Exposure Limits: Exposure limits have not been established by Safe Work Australia for this product or any of its components.

Workplace Exposure Standard(s) for decomposition product(s) are:

- Hydrogen chloride: TWA Peak Limitation = 7.5 mg/m³ (5 ppm)
- Carbon oxides: Carbon dioxide 8hr TWA = 9 g/m³ (5000 ppm)
 - Carbon monoxide 8hr TWA = 34 mg/m³ (30 ppm)
- Nitrogen oxides: Nitrous oxide. TWA = 31 mg/m³ (25 ppm). Nitrogen dioxide TWA – 5.6 mg/m³ (3 ppm). STEL 9.4 mg/m³ (5 ppm)

Exposure controls

Appropriate Engineering Controls:

Eye wash bottle or emergency eye-wash fountain must be found in the work place.

Personal Protective equipment - for manufacturing and bulk handling situations:

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

Clothing:

Wear overalls clothing including chemical resistant apron where clothing is likely to be contaminated.

Product Name: Hy-Clor Algaecide 5L

Safety Data Sheet 25 August 2021 **Skin Protection:** Wear gloves of impervious material such as PVC, neoprene or nitrile. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Tightly fitting safety goggles or full-faced shields as **Eye Protection:** appropriate recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. **Respiratory Protection:** Respiratory protection is not normally necessary, unless the production of mists is significant. In such cases, a suitable respirator may be worn that meets the requirements of AS/NZS 1715 and AS/NZS 1716. **Personal Hygiene:** Always wash hands after handling this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Light Blue Liquid	Vapour density:	No data found
Odour: pH: Melting point / freezing point:	None 7-7.5 at 1% Not applicable	Relative density: Water solubility: Partition coefficient n- octanol/water:	1.0 at 20°C Completely soluble Not applicable, inorganic compound
Initial boiling point and boiling range:	~ 100°C	Auto-ignition temperature:	Not applicable
Flash point:	Not flammable	Decomposition temperature:	No data found
Evaporation rate: Flammability:	No data found Not flammable	Viscosity: Explosive properties:	No data found Not explosive
Upper/lower flammability limits:	Not flammable	Oxidising properties:	Not an oxidiser
Vapour pressure:	2.37kPa at 20°C		

10. STABILITY AND REACTIVITY

Reactivity:	This product is stable
Chemical Stability:	This product is stable and unlikely to react or decompose
	under normal circumstances.

Product Name: Hy-Clor Algaecide 5L

Possibility of hazardous reactions:

Safety Data Sheet

25 August 2021

Hazardous reactions will not occur under normal transport or storage conditions. Decomposition may occur on exposure to conditions or materials listed below. Under fire conditions this product may emit carbon monoxide (in conditions of incomplete combustion), carbon dioxide, nitrogen oxides and hydrogen chloride may be produced if water in the product boils off. Extremes of temperature and direct sunlight.

Conditions to avoid: Incompatible materials: Extremes of temperature and direct sunlight Strong oxidising agents. Strong acids.

11. TOXICOLOGICAL INFORMATION

No data available for the product. Information given is based on the benzalkonium chloride (C_{12} - C_{16} alkyl dimethyl benzyl ammonium chloride) component.

Acute Oral	Swallowing may result in soreness and redness of the mouth and throat. Nausea and stomach pain may occur. There may be vomiting. Oral LD_{50} (rat): 426 mg/kg. Product Oral LD_{50} by GHS mixture calculation 2840 mg/kg.
Acute Dermal	Dermal LD ₅₀ (rat): 1420 mg/kg. Product Dermal LD ₅₀ by GHS mixture calculation > 5000 mg/kg
Skin corrosion/irritation	Contact with skin may result in severe irritation.
Serious eye damage/eye irritation	May cause irreversible eye damage.
Inhalation	Not considered an inhalation hazard, however product may be irritating.
Respiratory or skin sensitisation	Inhalation of mist may result in respiratory irritation. Not considered a skin sensitiser
Mutagenicity	Not mutagenic or genotoxic
Reproduction/Development	No data found
Carcinogenicity	Not carcinogenic based on rat and mice studies
Specific target organ toxicity - single exposure	Highly active in causing hemolysis of rabbit erythrocytes
Specific target organ toxicity - repeated exposure	No data found
Aspiration hazard	No data found

12. ECOLOGICAL INFORMATION

Product Name: Hy-Clor Algaecide 5L

25 August 2021

No data available for the product. Information given is based on the benzalkonium chloride $(C_{12}-C_{16} alkyl dimethyl benzyl ammonium chloride)$ component.

Aquatic toxicity	Algae 96H ErC₅₀: 0.06 mg/L	
	Daphnia 48H EC ₅₀ : 0.02 mg/L	
	Fish 96H LC ₅₀ : 0.85 – 1.2 mg/L	
Persistence and degradability	Readily biodegradable. If released to watertreatment and the environment biodegradation is expected to occur. If released into water, based on the Koc it is expected to adsorb to suspended solids and sediments.	
Bioaccumulative potential:	No data found	
Mobility in soil	None expected based on an estimated Koc of 9x10 ⁻⁵	
PBT identification:	This product is not identified as a PBT/vPvB substance.	
Other adverse effects:	Toxic to soil organisms.	

13. DISPOSAL CONSIDERATIONS

Disposal: Rinse empty containers in the pool and dispose of by wrapping with paper and putting in garbage. For larger quantities, refer to Refer to local government authority for disposal recommendations. Dispose of material through a licensed waste contractor. Normally suitable for disposal at approved land waste site..

14. TRANSPORT INFORMATION

Consult the ADG 7.5, IMDG and ICAO/IATA Codes for all the transport requirements for the specified UN Number.

	Land Transport (ADG 7.5)	Sea Transport (IMDG)	Air Transport (ICAO/IATA)
UN Number			
UN proper shipping name			
Transport Hazard Class			
Packaging Group	II or III	II	11
Marine Pollutant		Yes	
Special Provisions*			
* See ADC 7.5 for detail			1

See ADG 7.5 for details

15. REGULATORY INFORMATION

Poisons Standard (Scheduling):	Schedule 6
APVMA Product Number:	66276/53210
Listing in the Australian Inventory of Chemical Substances (AICS)	Listed as Quaternary ammonium compounds, benzyl-C12-16- alkyldimethyl,chlorides. Synonym: benzyl-C - alkyldimethylammonium chlorides

16.OTHER INFORMATION

ADG	Australian Code for the Transport of Dangerous Goods by Road & Rail Edition 7.5, 2017
AS/NZS	Australian Standard/New Zealand Standard
CAS Number:	Unique Chemical Abstracts Service Registry Number
EC ₅₀ :	Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species).
GHS:	Globally Harmonized System of classification and labelling of chemicals (GHS)
Hazchem Code:	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters

Product Name: Hy-Clor Algaecide 5L

	Safety Data Sheet	25 August 2021
HCIS:	Hazardous Chemical Information System	-
	(http://hcis.safeworkaustralia.gov.au/HazardousCh	<u>emical</u>)
IARC:	International Agency for Research on Cancer	
LD ₅₀ :	Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).	
IDLH:	Immediately dangerous to life or health (IDLH) is defined by	
	the US National Institute for Occupational Safety a (NIOSH)	nd Health
LC ₅₀ :	Lethal Concentration 50% – concentration in air wh	nich is fatal
	to 50% of a test population.	
NTP:	National Toxicology Program (USA)	
SDS:	Safety Data Sheet	
STEL:	Short term exposure limit (STEL) means the time-v	0
	average maximum airborne concentration of a sub- calculated over a 15 minute period.	stance
TWA:	8-hour Time-weighted average (TWA) means the n	naximum
	average airborne concentration of a substance whe	
	calculated over an eight-hour working day, for a fiv	e-day
	working week.	
WES:	Workplace exposure standard	
UN Number:	United Nations Dangerous Goods Number
